

WASTE LESS. RECYCLE MORE

NOTICE:

BIN CHANGEOVER & REMOVAL OF OLD BINS

Your new kerbside waste service begins on 1 July, which includes new red and yellow bins, and for those who have opted into the green organics service, a green bin and kitchen caddy. Your old bins will be collected by a contractor.

WHAT IS HAPPENING TO MY BINS?

Customers who have opted into the voluntary fortnightly green organics service will receive their new bins from **18 June**. New red waste bins and yellow recycling bins will be delivered to households and businesses between **25 July** and **14 August**.

WHY ARE THEY BEING REMOVED?

Council has a new waste contractor. All new bins will be fitted with a unique bin identification code, making it easy to track misplaced or stolen bins, and allowing the contractor to monitor bins that have been serviced.

WHAT ABOUT MY OLD BINS?

Removal of your old bins will start on **20 August**. From this date, please place your bins on the kerb (on your normal bin collection day) to be collected by the contractor. We anticipate this phase will take several weeks to complete. It is a significant job for our contractor and we appreciate your patience. **If you currently have a green bin, you may choose to keep it or have it collected with your other bins.*

WHEN CAN I START USING MY NEW BINS?

You can start using your new green bins from 1 July. Your red and yellow bins can be used as soon as they are delivered. Any old bins presented at the kerbside will not be collected once the new service has commenced.

QUESTIONS?

If you're not sure or have a question about the removal of your old bins please contact SOLO Resource Recovery on 08 8295 5077 or email bpg.customerservice@solo.com.au
